Date: 2/14/2022

To: Linn County Board of Supervisors

Re: Equipment Purchase

I request to purchase a Husqvarna concrete saw from Campbell Supply for \$29,550.90

The Secondary Road Department, along with the Purchasing Department conducted an RFQ for a concrete saw in accordance with the Linn County Procurement Policy.

This concrete saw meets Linn County Secondary Road Department specifications and was the low quote.

This concrete saw will be assigned to Construction Crew.

Make: Husqvarna

Model: FS5000

Price: \$29,550.90

Purchase Order to:

Campbell Supply
2127 N Towne Ln NE
Cedar Rapids, IA 52402
800-252-6120

Surplus Cimline Deluxe 65 concrete saw which was purchased used in 2012 will be sold on
www.publicsurplus.com (Engine is locked up & not repairable)

www.walknrollpackers.com

YOUR AUTHORIZED DEALER

Buy America! Hire America! Walk 'n' Roll packer/roller

"King of the Grader Attached Compactors"

The Series 3 Walk 'n' Roll packer/roller has Independent Walking Beams providing 100% coverage for maximum compaction with **NO ROLL OVER** of voids in the road base. Independent Walking Beams also creates a better kneading effect on the soil giving a more uniform surface compaction.

*One man can
do the work of two,
blade & compact
the road in one operation!*

*A Budget Saving Tool
for Better Roads,
with Less
Road Maintenance!*

THE RETRIEVER "King of the Gravel Reclaimers"

... An Investment that actually
Saves you Time and Money

- Retrieve lost gravel back to road surface
- Fill pavement edge ruts and recycle support material
- Mulch roadside berm for lump-free spreading
- Reduces mowing - mulches growth below the surface
- Increase road safety - maintain a safe driving surface on shoulder

- Extend road life - removes berm to allow water run off
- Operates at 5 - 10 MPH
- Operator remains safely on road surface

NO RIPPER?

NO PROBLEM!

Walk 'n' Roll Parallel Lift, Lift Assembly

The **Walk 'n' Roll** Heavy Duty Lift Assembly attaches to the motor grader like a factory rear ripper. It uses the same bolt pattern so there is no welding or holes to drill to mount the lift assembly. The lift assembly requires an extra valve and hydraulics to the rear of the motor grader. Parallel lift raises and lowers the front and rear tires simultaneously assuring equal pressure on all of the tires.

Quick-Attach

Ripper Receiver

The Accumulator and Quick-Attach are standard on the **Walk 'n' Roll** Lift Assembly. The Quick-Attach allows easy on - easy off of the grader. It's a one man operation.

The Quick-Attach is optional for ripper mounted packers. The Quick-Attach brackets are mounted on the **Walk 'n' Roll** packer and the ripper receivers are loose and can be manually placed in the ripper pocket.

See the **Walk 'n' Roll** video on our website

You will see the WR75 in Action

... An investment that actually Saves you Time and Money

- Front- Mount System**
- Connects with a quick hitch to an existing front lift group
 - Operator is working in driving direction
 - Depth control

- Wing-Mount Retriever**
- Mounts to existing side Grader snow wing
 - Greater stability on Grader & reaches further out
 - Depth control

- Tractor- Mount Retriever**
- Mounts to any 3pt hitch (lower 2 arms only)
 - Rear wheel an carrying frame, no stress on 3pt
 - Depth control on carrying frame
 - Gang floats independent of tractor, which enables gang to follow contour of surface
