2.1 Objectives

Customer has requested that Enforce provide resources to augment Customer's resource capability and capacity with efforts of the Ceridian Service (the "**Project**"). Enforce and Customer shall commit resources to work on the Project as set forth below (the "**Project Team**") to complete the activities within this SOW. Enforce will leverage our existing Dayforce implementation project experiences as a foundation for all TAM related activities. It is Enforce desire to perform our services in an efficient and effective manner. Our primary objective is to assist Linn in realizing its desired ROI objectives from the Dayforce application.

2.2 Scope

Subject to the assumptions set forth below and any changes in scope reflected in a mutually executed change order ("**Change Order**"), Enforce will provide the Professional Services described below as in-scope for this SOW. The scope of the Project will include (i) Dayforce configuration; (ii) custom Dayforce reporting; (iii) insights & analytics leveraging Dayforce data; (iv) open enrollment support; and (v) Dayforce new release support. The Enforce team will have a fixed number of hours ("**Monthly Hours**") per month that are available upon request from Customer to perform these Dayforce related tasks.

The Monthly Hours available to Customer shall be up to 28 hours. It is anticipated the TAM hours each month will be allocated to the following tasks in approximately the associated percentages:

- Monthly Allocation 60% - TAM Support/Configuration Fixes including Customer trouble ticket monitoring & resolution, where possible (excludes Dayforce product related support)
- Monthly Allocation (pending allocation, subject to release schedule) - New Release Support
- Monthly Allocation 30% - Custom Reporting & Open Enrollment Support
- Monthly Allocation 5% - Insights & Analytics
- Monthly Allocation 5% - TAM Project Management

Linn may elect to use the Monthly Hours in an allocation which differs from the suggested percentage allocation indicated above subject to Linn communicating to Enforce in advance of the next calendar month whereby the monthly allocation will differ from the suggested monthly allocation. The Monthly Hours usage will be determined by Customer.

Unused Monthly Hours ("**Unused Monthly Hours**") shall be permitted to carry forward into future months ("**Unused Hours Carry Forward**"). The Unused Hours Carry Forward shall be strictly limited to the previous trailing 1-month period and shall be capped at a maximum Unused Hours Carry Forward of 28 hours in a given month. Should Linn choose to Terminate or not renew the Term of this Agreement, any Unused Monthly Hours will be void.

Should Customer desire to add additional hours during a given month, the process outlined in Section 4: Changes in Project Scope will be followed. Enforce shall add and invoice additional Linn requested hours at a rate of \$150/hour.

2.3 Approach, Staffing and Term

Enforce will assign a single point of contact to Customer for all activities within the scope of this SOW. Enforce proposes to provide a TAM trouble ticket system to capture Customer's Dayforce issues. The Enforce team will assess the issue and seek to resolve the issue in a prompt and accurate manner.

Enforce will provide up to five (5) implementation consultants to work with Customer during the TAM Project. The specific resource staffing and schedule will be maintained by the Enforce point person and will be adjusted based on the specific task needs during the month.

The term of this SOW begins October 18, 2021 and continues for a period of six (6) months ("**Term**").

3. Assumptions

3.1 General Assumptions

- Customer and Enforce will hold regular Project status meetings ("Project Status Meetings") with full Project Team to facilitate the implementation of this SOW. Project timeline estimates are based on availability of Customer resources and key decision makers. Lack of access to project stakeholders will impact project timelines and costs if decisions cannot be made in timely fashion.
- Customer will provide the appropriate level of Project sponsorship to ensure buy-in at the top levels of the organization. Though not required on weekly meetings, Customer's Executive Sponsor will be able to devote (1) hour per month ("Project Sponsor Meetings") throughout the Term to support the Project agenda within the company. The Project Team will have timely access to other key management and user constituents as required. Neither the Project Status Meetings nor the Project Sponsor Meetings shall incur time against the Monthly Hours.
- The following are out of scope for this SOW:
 - Certain Dayforce product related issues are not within the scope and will require Customer to seek Dayforce product support directly from Ceridian.
